

ComVida Mobile App - Set Up

⚠ Important Note: Newly enrolled users must first log in to ComVida using a web browser to reset their default password. This step is required before accessing the CVC Mobile app, as login attempts will fail without it. If you've not yet used your ComVida credentials, please do so now to complete a password reset (<https://www.adaptiveems.com/VDACL>).

1. Downloading the App

Download the app from the Apple Store for iPhone or the Play Store for Android devices. Search for ComVida Corporation and find ComVida Mobile.

[ComVida Mobile on the App Store](https://apps.apple.com/ca/app/comvida-mobile/id1508049793)

<https://apps.apple.com/ca/app/comvida-mobile/id1508049793>

2. Accessing the ComVida Mobile App

- On your first login, enter the company URL:
<https://www.adaptiveems.com/VDACL>
- Enter your **username** and **password**, then tap **Log In**.
Your device may prompt you to save your login—this is optional.
The company URL will save automatically.

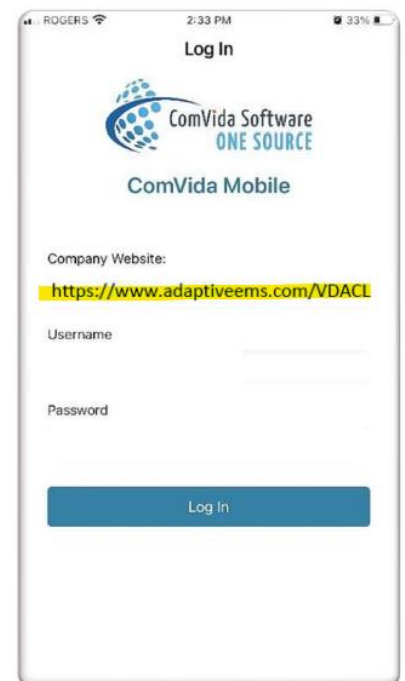

⚠ If you work for multiple employers using ComVida Mobile, the company URL determines which organization you're accessing. Always enter the correct URL for the organization you're trying to log into.

3. Device Settings and Preferences

To ensure all features of the app function properly, please check the following features are given permission:

- Location Services Enabled (Used for Time Clock)
- Notifications Turned On (Used for Shift Vacancies/Schedule Communication)

ComVida will request these permissions when using the app for the first time via a pop-up window. You can update App permissions manually in your device settings.

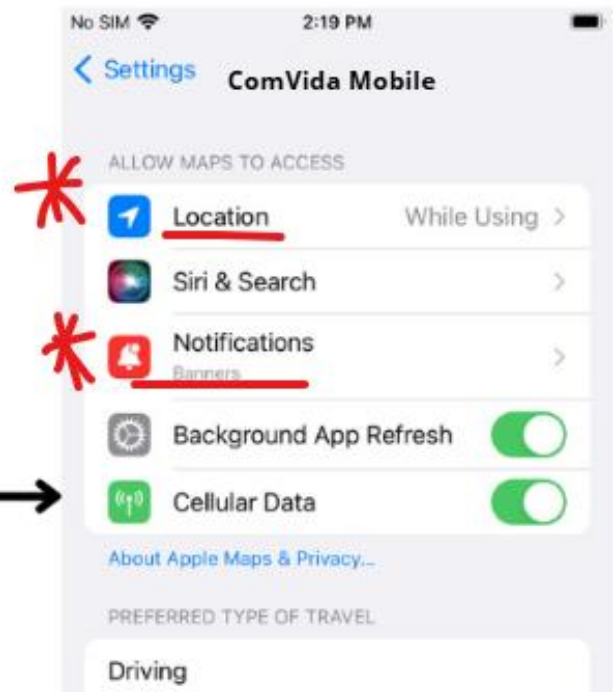

Managing App Permissions on Apple Devices (iPhone/iPad)

To Manage Notification Settings:

1. Open the **Settings** app .
2. Scroll down and tap **Notifications**.
3. Find and tap **ComVida**.
4. Toggle **Allow Notifications** ON.
5. Customize your preferences:
 - Choose where alerts appear (Lock Screen, Notification Center, Banners).
 - Enable/disable **Sounds** and **Badges**.
 - Set **Banner Style** to *Persistent* for important alerts.

To Manage Location Permissions:

1. Open the **Settings** app .
2. Scroll down and tap **Privacy & Security**.
3. Tap **Location Services**.
4. Ensure **Location Services** is turned ON.
5. Scroll to find the **ComVida** app and tap it.
6. Choose your preferred setting:
 - **While Using the App**
 - **Always**

Managing App Permissions on Android Devices

To Manage Notification Settings:

1. Open your device's **Settings**.
2. Tap **Apps** or **Apps & notifications**.
3. Find and tap **ComVida**.
4. Tap **Notifications**.
5. Toggle **Allow notifications** ON.
6. Customize how you want to receive alerts (e.g., sound, vibration, lock screen).

To Manage Location Permissions:

1. Open your device's **Settings**.
2. Tap **Location** > **App permissions** (or **App location permissions**).
3. Find and tap **ComVida**.
4. Choose your preferred setting:
 - **Allow all the time**
 - **Allow only while using the app.**
